Capabilities & Focus Areas

Strategy to life – Architecture to code

Profile

I work at the intersection of business strategy and technical implementation.

My focus: **creating structure, establishing technical clarity, and enabling actionable decisions**—especially in environments where organically grown IT landscapes create unnecessary complexity.

I combine **Enterprise Architecture** with **modern web development**, enabling organizations to operate faster, more securely, and with greater precision.

GitHub (spotlight-core2code): Architecture · PWA · Event-Driven

IT Architecture

Orientation. Structure. Future-readiness.

Focus Areas

- Target architectures & technical guardrails
- Cloud, hybrid & on-prem architecture
- Platform & API architecture
- Structuring complex IT landscapes
- Technical decision frameworks
- Roadmaps derived from strategic objectives
- Architecture reviews & health checks
- Guidance throughout transformation initiatives

Web Development

Modern applications — lean, performant, maintainable.

Focus Areas

- Development of complete web applications & PWAs
- Modern frontend architectures & micro-frontends
- Performance optimization (LCP, Lighthouse, rendering)
- API & identity integration (e.g., Okta)
- Refactoring & modernization of existing solutions
- UX-aligned technical frontend implementation

Availability & Engagement

Availability: flexible – project-based, continuous, or modular
Location: Remote or EU
Languages: English & German
Roles: **IT Architect · Solution Architect · Technical Lead · Web Developer**
